Solosbuvir Resistance-associated Substitutions in the Palm Domain of HCV-NS5B RNA Dependent RNA Polymerase; Study of two Sofosbuvir non-responders

PII: S1201-9712(21)00426-4
DOI: https://doi.org/10.1016/j.ijid.2021.05.025
Reference: IJID 5409
To appear in: International Journal of Infectious Diseases
Received Date: 14 January 2021
Revised Date: 8 May 2021
Accepted Date: 11 May 2021

Please cite this article as: ( doi: https://doi.org/)

This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
